

> Exceptional people

MBS Transport delivers cargo with our trucks. Service excellence and customer satisfaction, however, are delivered by our people.

Our competent and experienced staff optimise the delivery of each consignment to achieve the best possible combination of shortest time, lowest cost and most effective risk management.

To achieve this outcome, each MBS Transport employee:

- ◆ Undergoes a challenging recruitment and selection process;
- ◆ Participates in regular training to remain fit, skilled and competent;
- ◆ Is continuously motivated to uphold the company's image and service levels;
- ◆ Is educated on the importance of our customers;
- ◆ Receives recognition for creativity and innovation; and
- ◆ Understands that he or she is our most important asset.

Our first duty is to deliver quality service to our customers, whether on our own premises, loading or unloading at a customer site, or travelling on the country's roads.

We fulfil this duty by investing in the development of our staff. Our initiatives include:

- ◆ Comprehensive induction programmes and learner guidance;
- ◆ Transparency in internal and external auditing, and
- ◆ Mentorships and broad-based empowerment.

EXCEPTIONAL ETHOS

MBS Transport is a 100% Black-owned undertaking that complies with South African and International equity benchmarking standards.

The company is owned and managed by Mervin Shkaidy and Gillian Shkaidy, and 5% of all our profits goes towards the development of non-profit organisations.

Mervin Shkaidy and Gillian Shkaidy.

> Exceptional company

Our trucks are well-oiled, finely tuned machines. The same applies to our company.

MBS Transport CC, an independent South African transport logistics company, was established and commenced operations in 2005. The managing members pride themselves on offering an exclusive, personalised and professional service, built on collective transport industry knowledge that exceeds 10 years. No contract is too large or too small for us.

Our Vision

- ◆ To improve the quality of life through entrepreneurial upliftment.
- ◆ To create sustainable growth initiatives that would create economic wealth within.
- ◆ To be respected as a South African Black emerging logistics company.

Our Mission

MBS Transport subscribes to an integrated development approach to strategy. Strategy is, therefore, much more than a buzz word for us. All our activities are geared towards adding value and increasing the bottom line for clients. We provide our clients with sound transportation and logistical solutions in the form of products and services.

Our Objectives

At MBS Transport we:

- ◆ Uphold human dignity and respect;
- ◆ Follow an entrepreneurial, innovative, pragmatic and value-focused approach to business;
- ◆ Value honesty and integrity in business conduct;
- ◆ Believe in the development of our company's human capital;
- ◆ Value customer-driven service excellence, professionalism and efficiency in everything we do;
- ◆ Ensure that there is a transfer of skills to employees;
- ◆ Conduct business in a manner that is responsible to the environment and society as a whole;
- ◆ Are courteous and considerate to clients at all times;
- ◆ Use state-of-the-art methods and technologies in the execution of every project in order to improve results; and
- ◆ Encourage innovative thinking and new ideas to keep abreast of the fast-changing environment.

> Exceptional service

Our fleet of 54 trucks have travelled thousands of kilometers to deliver valuable cargo. Our staff have gone as many extra miles to deliver exceptional service.

Transport logistics is an artful blend of business requirements, client expectations and everyday realities. MBS Transport strikes the balance through hands-on management. Our highly experienced supervisory and management staff control cost, quality and performance to ensure a comprehensive service offering of the highest standard.

On site

Safety and efficiency are of utmost importance to both our clients and our company. For this reason, we employ highly trained and knowledgeable on site supervisors who ensure:

- ◆ A healthy and continuous working relationship;
- ◆ Smoother operations;
- ◆ Efficient service levels; and
- ◆ Minimum delays.

On the road

The thousands of kilometres travelled each year demands rigorous maintenance of our vehicles. This aspect of our service delivery is met through;

- ◆ Frequent servicing and safety checks undertaken at our fully equipped dealership associations; and
- ◆ Service contracts established with major dealerships countrywide.

Clients set very high standards for the transportation of their products and we make it our business to meet and exceed them.

man and machine...

At MBS Transport they are in perfect harmony to deliver cargo, economic growth and people empowerment.
